(an exploration stage company)
(formerly Victoria Resource Corporation)

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

For the three months ended May 31, 2009
(expressed in Canadian dollars)

The interim consolidated financial statements of Victoria Gold Corp. ("Victoria" or "the Company") including the accompanying consolidated balance sheets as at May 31, 2009, and February 28, 2009, and the consolidated statements of operations and comprehensive loss, shareholders' deficit and other comprehensive income, and cash flows for the three-month periods ended May 31, 2009, and 2008, are the responsibility of the Company's management. The interim consolidated financial statements have been prepared by management and include the selection of appropriate accounting principles, judgments and estimates necessary to prepare these financial statements in accordance with Canadian generally accepted accounting principles ("Canadian GAAP") for interim financial statements.

The Company's independent auditor, Pricewaterhouse Coopers LLP, has not performed a review of these financial statements.

1 Going concern

While, at May 31, 2009, Victoria Gold Corp. ("Victoria" or "the Company") had a working capital surplus of $9,451,163 the Company reported a net loss of $908,800 (2008 - $423,635) for the quarter then ended and a closing deficit of $22,073,938 (2008 - $11,488,979). The Company's ability to meet its obligations and maintain operations is contingent upon successful completion of additional financing arrangements. The Company periodically seeks financing to continue the exploration of its mineral properties and to meet its ongoing administrative requirements. Although the Company has been successful in raising funds to date (See Notes 9 and 17), there can be no assurances that additional funding will be available in the future. These combined factors lend significant doubt about the Company's ability to continue as a going concern and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

These consolidated financial statements have been prepared using Canadian GAAP applicable to a going concern, which assumes that the Company will be able to realize assets and discharge liabilities in the normal course of operations as they come due. These consolidated financial statements do not include any adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classification that would be necessary should the Company be unable to continue as a going concern. These adjustments could be material.

The Company is in the process of advancing its mineral properties and has not yet determined whether the properties contain mineral reserves that are economically recoverable. The recoverability of the amounts shown for mineral properties and related deferred costs is dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the development, and upon future profitable production or proceeds from disposition of the mineral properties. The amounts shown as mineral property costs represent incurred costs to date and do not necessarily represent future values.

2 Nature of operations and basis of presentation

Nature of operations
Victoria is engaged in the acquisition, evaluation, exploration and development of mineral properties. To date, the Company has not realized any revenues from its properties and is considered to be an exploration stage company.

Basis of presentation
These consolidated financial statements include the accounts of Victoria and its wholly-owned subsidiaries including:

- Victoria Resources (U.S.) Inc., a Nevada corporation,
- Gateway Gold Corp., a British Columbia corporation, and
- Gateway Gold (USA) Corp., a Nevada corporation.

Gateway Gold Corp. and Gateway Gold (USA) Corp. (together referred to as "Gateway") were acquired by the Company, with a closing date of December 18, 2008.

All inter-company balances and transactions have been eliminated.

Basis of Presentation – Interim Statement
The interim consolidated financial statements are prepared in accordance with accounting principles generally accepted in Canada for interim financial statements and reflect all adjustments which are, in the opinion of management, necessary for fair statement of the results of the interim periods presented. However, these interim consolidated financial statements do not include all of the information and disclosure required for annual consolidated financial statements. These interim

consolidated financial statements should be read in conjunction with the most recent annual financial statements of the Company. All amounts are expressed in Canadian dollars unless otherwise noted.

3 Summary of significant accounting policies

Use of estimates

The preparation of these consolidated financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include assessment of the carrying value of resource properties, valuation of stock options and share purchase warrants and asset retirement obligations. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents include cash and highly liquid money market instruments, that have a maturity of three months or less.

Resource properties

Mineral acquisition, exploration and development costs are capitalized on an individual project basis until such time as the economics of an ore body are defined. If production commences, these costs would be amortized on a units of production basis over the estimated mineral reserves. Unrecoverable costs for projects determined to be commercially not feasible are expensed in the year in which the determination is made or when the carrying value of the project is determined to be impaired.

Where information is available and conditions suggest impairment, estimated future net cash flows from each property are calculated using estimated future prices, proven and probable reserves, and operating and capital costs on an undiscounted basis. An impairment charge is recorded if the undiscounted future net cash flows are less than the carrying amount. Reductions in the carrying value of each property, with a corresponding charge to operations, are recorded to the extent that the estimated future net cash flows on a discounted basis are less than the carrying value in accordance with the Canadian Institute of Chartered Accountants (“CICA”) Handbook Section 3063, “Impairment of Long-lived Assets”.

Where estimates of future net cash flows are not available and where other conditions suggest impairment, management assesses whether the carrying value can be recovered. Any one of the following items, including but not limited to, are considered cause for impairment:

- Exploration activities have ceased;
- Exploration results are not promising such that exploration will not be planned for the future;
- Lease ownership rights expire;
- Sufficient funding is not expected to be available to complete the mineral exploration program; or
- An exploration property has no material economic value to the Company’s business plan.

If impairment is identified, the carrying value of the property is written down to its estimated fair value. Although the Company has taken steps to verify title to mineral properties in which it has an interest, according to industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Such properties may be subject to prior undetected agreements or transfers and title may be affected by such defects.

Property and Equipment
Property and equipment are recorded at cost less accumulated amortization. Amortization is provided over the related asset's estimated useful life using the declining-balance or straight-line method as follows:

- Furniture and fixtures – 20% declining balance;
- Computer equipment – 30% declining balance;
- Field equipment – 20% declining balance;
- Automotive equipment – 30% declining balance;
- Leasehold improvements – straight-line over the term of the lease (five years).

Future income taxes
The Company uses the liability method of accounting for future income taxes. Under this method of tax allocation, future income tax assets and liabilities are recognized for temporary differences between the tax and accounting bases of assets and liabilities as well as for the benefit of losses available to be carried forward to future years for tax purposes. The amount of future income tax assets recognized is limited to the amount that is more likely than not to be realized.

Foreign exchange translation
The Company's US subsidiaries are integrated foreign operations and their financial statements are translated using the temporal method. Currency transactions and balances are translated into the reporting currency as follows:

- monetary items are translated at the rates prevailing at the balance sheet dates;
- non-monetary items are translated at historical rates;
- revenues and expenses are translated at the average rates in effect during applicable accounting periods except depreciation and amortization, which are translated at historical rates; and
- exchange gains and losses on foreign currency translation are included in operations for the year.

Stock-based compensation
Compensation expense for stock options granted is determined based on the estimated fair values of the stock options at the time of grant, the cost of which is recognized over the vesting periods of the respective options. In the determination of fair values, the Company uses the Black-Scholes option pricing model. Fair values are determined at the time of grant. The value of stock options earned by employees and consultants whose salaries are capitalized to resource properties are also capitalized to resource properties.

Asset retirement obligations
The fair values of liabilities for asset retirement obligations are recognized in the period they are incurred. The obligations are measured initially at fair value based on discounted cash flows and the resulting costs are capitalized to the carrying amount of the related asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost will be depreciated on the same basis as the related asset.

Loss per common share
Basic per share amounts are calculated using the weighted average number of common shares outstanding during the year. Diluted per share amounts are calculated based on the treasury-stock method, which assumes that any proceeds from the exercise of options and warrants would be used to purchase common shares at the average market price during the year. The weighted average number of common shares outstanding is adjusted for the net increase in the number of common shares issued upon exercise of the options and warrants. Stock options and warrants are included in the calculation of diluted per share amounts only to the extent that the average market price of the

common shares during the year exceeds the exercise price of the options or warrants. During years when the Company has generated a loss, the potential shares to be issued from the assumed exercise of options and warrants are not included in the computation of diluted per share amounts since the result would be anti-dilutive.

4 Changes in accounting policies and accounting standards

Accounting changes

Effective March 1, 2009, the Company adopted new accounting recommendations as outlined below. The changes are applied prospectively with no restatement of prior periods.

(i) Goodwill and Intangible Assets, Section 3064

Section 3064 replaces Section 3062, Goodwill and Intangible Assets, and Section 3450, Research and Development Costs. Section 3064 establishes standards for the recognition, measurement and disclosure of goodwill and intangible assets. As at March 1, 2009 the adoption of this standard has had no effect on the Company's results of operation, cash flows or financial position.

(ii) Credit Risk and the Fair Value of Financial Assets and Financial Liabilities, EIC-173

EIC-173 discusses the conclusion reached by the Emerging Issues Committee ("EIC") that an entity's own credit risk and the credit risk of the counterparty should be taken into account when determining the fair value of financial assets and financial liabilities, including derivative instruments. As at March 1, 2009 the adoption of this standard has had no effect on the Company's results of operation, cash flows or financial position.

(iii) Impairment Testing of Mineral Exploration Properties, EIC-174

EIC-174 discusses the issues of (i) when exploration costs related to mining properties may be capitalized, and (ii) if exploration costs are initially capitalized, when should impairment be assessed to determine whether a write down is required, and what conditions indicate impairment. As of May 31, 2009, the Company believes that no event or change in circumstances has occurred which would trigger impairment assessment on its mineral properties.

Future accounting changes

Business Combinations, Section 1582

Section 1582 establishes standards for the accounting for business combinations that is equivalent to the business combination accounting standard under International Financial Reporting Standards ("IFRS"). Section 1582 is applicable for business combinations with acquisition dates on or after January 1, 2011. Early adoption of this section is permitted.

Consolidated Financial Statements, Section 1601

Section 1601 provide guidance on the preparation of consolidated financial statements. This is effective for interim and annual consolidated financial statements relating to fiscal years beginning on or after January 2011 and will be adopted by the Company on March 1, 2011.

Non-controlling Interests, Section 1602

Section 1602 provides guidance on accounting for non-controlling interests subsequent to a business combination. This is effective for fiscal years beginning on or after January 2011 and will be adopted by the Company on March 1, 2011.

INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS")

In January 2006, the CICA's Accounting Standards Board ("AcSB") formally adopted the strategy of replacing Canadian GAAP with IFRS for Canadian enterprises with public accountability ("PAE's"). The current conversion timetable calls for financial reporting under IFRS for accounting periods commencing on or after January 1, 2011. The Company will be required to have prepared in time for

its first quarter 2012 filing, comparative financial statements in accordance with IFRS for the three months ended May 31, 2011.

The Company continues to assess the impact of these new accounting standards on its consolidated financial statements.

5 Acquisition of Gateway Gold Corp.

Victoria completed the acquisition of Gateway Gold Corp. ("Gateway"), by way of Plan of Arrangement (the "Arrangement"), which was approved by the Supreme Court of British Columbia on December 4, 2008, with an effective closing date of December 18, 2008. Pursuant to the Arrangement, holders of Gateway shares were entitled to receive 0.50 of a Victoria common share for each Gateway common share held. All outstanding Gateway options and warrants became exercisable for common shares of Victoria in accordance with the same ratio.

In consideration for the acquisition of Gateway, the Company issued 19,071,084 common shares to shareholders of Gateway, representing approximately $4.0 million in total value.

For accounting purposes, the measurement of the purchase consideration in the consolidated financial statement information is based on the closing market price of Victoria common shares on the effective closing date and $0.21 per each Victoria share for the Gateway acquisition.

Each Gateway warrant or stock option which gave the holder the right to acquire shares in the common stock of Gateway when presented for execution was exchanged for a warrant or stock option which will give the holder the right to acquire shares in the common stock of Victoria on the same basis as the exchange of Gateway's common shares for Victoria common shares. These warrants and options have been included in the purchase consideration at their fair value of approximately $0.3 million based on the Black-Scholes pricing model.

The principal assumptions used in applying the Black-Scholes option-pricing model were as follows:

Risk-free interest rate	**1.21%**
Dividend yield	**nil**
Volatility factor – options	**95%**
Volatility factor - warrants	**108%**
Expected life - options	**3.8 years**
Expected life - warrants	**1.4 years**

The purchase price allocation is summarized as follows:

	Cash Flow Impact	Purchase Price Allocation
Common shares of Victoria issued on acquisition		$ 4,004,928
Stock options to be exchanged for options of Victoria		276,000
Share purchase warrants to be exchanged for warrants of Victoria		62,312
Cash advance to Gateway under loan agreement	$ (500,000)	521,507
Acquisition costs	(315,144)	315,144
		$ 5,179,891
Net assets acquired:		
Cash and cash equivalents	$ 84,396	$ 84,396
Accounts receivable		25,712
Investments		305
Prepaid expenses		19,260
Reclamation bonds		466,449
Property and equipment		376,974
Acquired mineral property interests		5,248,538
Accounts payable and accrued liabilities		(420,028)
Amounts due to related parties		(621,715)
	$ (730,748)	$ 5,179,891

The loan includes a cash advance of $500,000 and accrued interest through to the effective date of $21,507.

* Black Canyon includes the 4th of July property

At February 28, 2009 the carrying value of the mineral property assets at the Hilltop Slaven, Black Canyon (including the 4th of July property) and Seven Troughs properties were entirely written off leading to a total impairment expense of $7.9 million. The decision to write down these assets was based on management's decision to cease exploration on these properties.

Hilltop-Slaven property

On June 15, 2003, the Company entered into a mining lease and sublease agreement (amended on August 10, 2004) with Newmont Mining Corporation ("Newmont"). The Company did not complete all

of the June 15, 2009 work commitments, as per the terms of the agreement. The Company intends to move forward with the possible termination of the agreement with Newmont and as a result has written off all of the deferred acquisition and exploration expenditures relating to the Hilltop-Slaven property.

Black Canyon property
Effective September 23, 2005, the Company entered into a mining lease agreement and subsequent amendment with Sleeping Midas, LLC (the "Owners"), whereby the Company leased and had a right to hold a 100% interest in the Black Canyon gold property. A US$100,000 payment due on March 31, 2009, was not made, as per the terms of the lease amendment. The Company intends to move forward with the possible termination of the agreement with the Owners and as a result has written off all of the deferred acquisition and exploration expenditures relating to the Black Canyon property.

Seven Troughs property
On June 15, 2006, the Company entered into a "Minerals Lease, Sublease and Agreement" with Newmont to lease the Seven Troughs project. The Company has decided not to perform any further exploration on the Seven Troughs property and intends to move forward with the possible termination of the agreement with Newmont. The Company has written off all of the deferred acquisition and exploration expenditures relating to the Seven Troughs property.

8 Asset Retirement Obligations

	Quarter Ended May 2009	Year Ended February 2009
Balance, beginning of the year	**$ 219,208**	$ 212,669
Obligations incurred during the year	**-**	-
Accretion expense	**3,070**	12,060
Adjustment of estimated cash flows to carrying value of assets	**-**	(5,521)
Balance, end of year	**222,278**	219,208
Less: current portion	**-**	-
Long-term portion	**222,278**	219,208

The Company's asset retirement obligations arise from its obligations to undertake site reclamation and remediation in connection with the Mill Canyon, Black Canyon, Relief Canyon and Cove-McCoy properties. The total undiscounted amount of the estimated future cash flows required to settle the asset retirement obligation is estimated to be $297,689. These expenditures are expected to be incurred over the period through 2012. In determining the carrying value of the asset retirement obligations, the Company has assumed a credit-adjusted, risk-free discount rate of 5.0% and a long-term inflation rate of 2.0%.

On May 1, 2009, the Company issued 200,000 shares to a consultant of the Company to settle an outstanding debt.

On March 13, 2009, the Company closed a brokered private placement of 15,832,000 Units and 6,791,800 Subscription Receipts priced at $0.45 each, for gross proceeds of $10.2 million (the “Offering). Each Unit “Unit” consists of one common share of the Company and one-half of one common share purchase warrant (each whole warrant a "Warrant"). Each Warrant entitles the holder to acquire one additional common share at a price of $0.55 until March 13, 2012. Each Subscription Receipt “Subscription Receipt” converts, upon satisfaction of certain escrow release conditions, into one common share of the Company and one-half of one common share purchase warrant (each whole warrant a "SR Warrant"). Each SR Warrant entitles the holder to acquire one additional common share of the Company at a price of $0.55 until March 13, 2011. The escrow release conditions include the completion by the Company of the acquisition of StrataGold Corporation (“StrataGold”) announced on February 11, 2009 (the “StrataGold Acquisition”) and were fully met in June 2009. Wellington West Capital Markets Inc. led a syndicate including Raymond James Ltd., Haywood Securities Inc. and M. Partners (together, the “Agents”) in connection with the Offering. As compensation for services

rendered in connection with the Offering, the Agents were paid a cash commission equal to 7% of the gross proceeds from the sale of Units and Subscription. The Agents were also issued broker warrants to purchase 1,108,240 Common Shares of the Company at a price of $0.45 per Common Share until March 13, 2010. All securities issued pursuant to the Offering are subject to a four month hold period which expired on July 13, 2009.

On December 18, 2008, the completed the acquisition of Gateway by way of Plan of Arrangement. Pursuant to the Arrangement, holders of Gateway shares were entitled to receive 0.50 of a Victoria common share for each Gateway common share held totalling 19,071,084 common shares to shareholders of Gateway.

On December 18, 2008, the Company closed a brokered private placement of 21,294,000 Units (the "Units") priced at $0.20 per Unit, for gross proceeds of $4.3 million (the "Offering). Each Unit is comprised of one common share and one-half of one common share purchase warrant. Each whole warrant is exercisable to purchase one common share at an exercise price of $0.25 for a twenty-four month period until December 18, 2010. In the event that the trading price of the common shares of the Company closes at or above $0.35 per share for 20 consecutive trading days on the TSX Venture Exchange in the period commencing four months and one day after the closing date, the Company will have the right to accelerate the expiry date of the Warrants to the date which is 30 days after the Company elects to give notice to the holders of Warrants of such accelerated expiry date. Kinross Gold Corporation ("Kinross") purchased 12,500,000 Units of the Offering and, along with their subsidiary EastWest Gold, collectively hold a 28% interest in the Company. Wellington West Capital Markets Inc. acted as agent "Agent" in connection with the Offering. As compensation for services rendered in connection with the Offering, Wellington West Capital Markets Inc, was paid a cash commission equal to 7% of the gross proceeds from the sale of Units to purchasers other than Kinross, and a cash commission equal to 3.5% of the gross proceeds from the sale of Units to Kinross. Wellington West Capital Markets Inc. was also issued broker warrants to purchase 615,580 Common Shares of the Company at a price of $0.20 per Common Share until December 18, 2009. For accounting purposes, the Company has determined a value of $1,107,217 ($1,044,395 for the purchase warrants and $62,822 for the Agents' warrants) for the warrants. The fair values of the warrants were calculated using the Black-Scholes option-pricing model based on a risk-free annual interest rate of 1.21%, an expected life of one year, an expected volatility of 115%, and a dividend yield rate of nil. All securities issued pursuant to the Offering were subject to a four month hold period which expired on April 19, 2008.

10 Stock options and warrants

Stock options

The Company has adopted a stock option plan for its directors, employees and consultants to acquire common shares of the Company at a price determined by the fair market value of the shares at the date of grant. One-eighth of options granted under the plan will vest immediately; a further one-eighth will vest after each three month period thereafter, with the final one-quarter vesting eighteen months from the date of grant. At May 31, 2009, 3,231,207 additional stock options were available for grant under the Company's stock option plan.

On May 11, 2009, the Company granted 150,000 incentive stock options with an exercise price of $0.32 per option to an employee of the Company. The stock options have a term of five years and expire on May 11, 2014. The fair value of these options totalling $30,481 will be recognized (capitalized) over the vesting periods, of which $7,133 has been recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 0.9%, an expected life of 3.0 years, an expected volatility of 109% and a dividend yield rate of nil. This results in an estimated value of $0.20 per option at the grant date using the Black-Scholes option-pricing model.

On April 6, 2009, the Company granted 125,000 incentive stock options with an exercise price of $0.45 per option to a consultant of the Company. The stock options have a term of three years and expire on April 6, 2012. The fair value of these options totalling $24,006 will be recognized (expensed) over the vesting periods, of which $8,235 has been recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 1.1%, an expected life of 3.0 years, an expected volatility of 109% and a dividend yield rate of nil. This results in an estimated value of $0.19 per option at the grant date using the Black-Scholes option-pricing model.

On December 17, 2008, the Company granted 3,105,000 incentive stock options with an exercise price of $0.21 per option to directors, officers and employees of the Company. The stock options have a term of five years and expire on December 17, 2013. The fair value of these options totalling $394,560 ($283,372 will be expensed and $111,189 will be capitalized to properties) will be recognized over the vesting periods, of which $231,530 ($166,284 has been expensed and $65,246 has been capitalized to properties) has been recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 2.1%, an expected life of 4.5 years, an expected volatility of 92% and a dividend yield rate of nil. This results in an estimated value of $0.13 per option at the grant date using the Black-Scholes option-pricing model.

On November 4, 2008, the Company granted 50,000 incentive stock options with an exercise price of $0.21 per option to an employee of the Company. The stock options have a term of five years and expire on November 4, 2013. The fair value of these options totalling $6,440 will be recognized (expensed) over the vesting periods, of which $4,512 has been recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 2.1%, an expected life of 3 years, an expected volatility of 99% and a dividend yield rate of nil. This results in an estimated value of $0.13 per option at the grant date using the Black-Scholes option-pricing model.

On January 22, 2008, the Company granted 150,000 incentive stock options with an exercise price of $1.00 per option to an employee of the Company. The stock options have a term of five years and expire on January 22, 2013. The fair value of these options totalling $83,736 will be recognized (expensed) over the vesting periods, of which $81,410 has been recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 3.2%, an expected life of 3 years, an expected volatility of 86% and a dividend yield rate of nil. This results in an estimated value of $0.56 per option at the grant date using the Black-Scholes option-pricing model.

On October 25, 2007, the Company granted 900,000 incentive stock options with an exercise price of $0.70 per option to officers and a consultant of the Company. 100,000 of these options have been forfeited. The closing price of the Company's stock on October 24, 2007 was $0.80 per share therefore the exercise price was set at a discount to market price. The stock options have a term of five years and expire on October 23, 2012. The fair value of these options, adjusted for forfeitures, totalling $532,690 ($199,759 expensed and $332,931 capitalized to properties) has been fully recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 4.2%, an expected life of 5 years, an expected volatility of 115% and a dividend yield rate of nil. This results in an estimated value of $0.67 per option at the grant date using the Black-Scholes option-pricing model.

On September 17, 2007, the Company granted 690,000 incentive stock options with an exercise price of $0.65 per option to employees of the Company. 170,625 of these options have been forfeited. The stock options have a term of five years and expire on September 17, 2012. The fair value of these options, adjusted for forfeitures, totalling $174,400 has been fully recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 4.3%, an expected life of 3 years, an expected volatility of 81% and a dividend yield rate of nil. This results in an estimated value of $0.34 per option at the grant date using the Black-Scholes option-pricing model.

On August 20, 2007, the Company granted 1.9 million incentive stock options with an exercise price of $0.60 per option to directors and an officer of the Company. The stock options have a term of five

years and expire on August 20, 2012. The fair value of these options totalling $915,175 has been fully recognized as at May 31, 2009. The fair value of these options was calculated based on a risk-free annual interest rate of 4.3%, an expected life of 5 years, an expected volatility of 115% and a dividend yield rate of nil. This results in an estimated value of $0.48 per option at the grant date using the Black-Scholes option-pricing model.

Option pricing models require the input of highly subjective assumptions. Changes in assumptions can materially affect the fair value estimate, and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options at the grant date.

The following table summarizes information regarding changes in the Company's stock options outstanding:

	Number of outstanding options	Weighted-average exercise price	Fair value assigned (Cdn$)
Stock options outstanding at Feb. 29, 2008	5,611,150	$0.70	2,825,615

12 Related party transactions

There were no related party transactions during the quarter ended May 31, 2009.

During February 2009, the company paid Michael McInnis, a director of the Company and former Chief Executive Officer of Gateway, severance of $258,600. This amount was included in accounts payable and accrued liabilities of Gateway as at December 18, 2008.

On May 20, 2008, Raul Madrid, an officer of the Company, exercised options to purchase 200,000 common shares of the Company at 0.91 per share. The total funds for this purchase, of $182,000, were received from Mr. Madrid on June 13, 2008 and were included in accounts receivable during the intervening period.

13 Commitments

Operating Leases

At May 31, 2009, Victoria has future minimum annual operating lease commitments for office premises in; (1) Vancouver, BC, (2) Toronto, Ontario, (3) Reno, Nevada, (4) Elko County, Nevada and (5) Salt Lake City, Utah, as follows:

		CAN$	US$
to February 29, 2010	$	76,747	80,380
to February 29, 2011		106,571	25,000
to February 29, 2012		111,096	-
to February 29, 2013		115,815	-
to February 29, 2014 and thereafter		9,920	-
Total	$	420,149	105,380

14 Financial Instruments

Fair value of financial instruments

The carrying values for primary financial instruments, including cash and cash equivalents, accounts receivable, loan receivable and accounts payable and accrued liabilities, approximate fair values due to their short-term maturities.

Risk exposure is summarized as follows:

a) Credit risk

Certain of the Company's financial assets are exposed to a degree of credit risk. The Company endeavours to mitigate credit risk by holding its cash and cash equivalents as cash deposits and short-term government treasury funds with major commercial banks.

Credit risk relating to accounts receivable, loan receivable and restricted cash arises from the possibility that any counterparty to an instrument fails to perform. The Company's accounts receivable relate to recoveries of GST while the loan receivable represents a fixed interest bearing loan made to StrataGold Corporation. Restricted cash includes reclamation bonds and a deposit with American Express. Reclamation bonds reflect non-interest bearing cash deposits held with governmental agencies representing the state of Nevada and joint venture partners and interest bearing certificates of deposit held by Wells Fargo. An interest bearing certificate of deposit is held by American Express Bank. The Company does not feel there is significant counterparty risk that could have an impact on the fair value of such receivables and reclamation bonds.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage. Accounts payables and accrued liabilities are due within the current operating period, from May 31, 2009 through August 31, 2009.

c) Market risk

a. Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The risk that the Company will realize a loss as a result of a decline in the fair value of the short-term investments included in cash and cash equivalents is limited as these investments, although available for sale, renew daily. The short-term investments included in cash and cash equivalents earn interest at prevailing rates.

b. Foreign currency risk

The Company incurs exploration expenditures in the United States and holds its restricted cash and a portion of its cash and cash equivalents in US dollars. This gives rise to a risk that its US dollar expenditures and US dollar cash holdings may be adversely impacted by fluctuations in foreign exchange. The Company does not undertake currency hedging activities.

c. Price risk

The Company's financial assets and liabilities are not exposed to price risk with respect to commodity prices. The Company's exploration drill programs are exposed to price risk, of which the Company has no control. The Company's exploration drill programs are carried out by outside contractors. Cost increases for consumables such as fuel and drill bits are indirectly passed on to the Company through its contracted drill programs.

There has been no significant change in the risk factors affecting the Company on a period over period basis.

Sensitivity Analysis

The following table summarizes the sensitivity of the Company's cash, cash equivalents and restricted cash to changes in interest rates and foreign exchange rates over the three month reporting period ended May 31, 2009.

	Carrying amount	Interest rate change (1)		Foreign currency change (2)	
		+ 1%	- 1%	+ 10%	- 10%
Cash and cash equivalents (Cdn $)					
Cash - Canadian denominated	258,848	647	(647)	-	-
Cash - US denominated	1,568,034	3,920	(3,920)	156,803	(156,803)
Treasury funds - Canadian denominated	6,586,367	16,466	(16,466)	-	-
Total cash and cash equivalents	8,413,248	21,033	(21,033)	156,803	(156,803)
Reclamation bonds - US denominated (non-interest bearing)	394,531	986	(986)	39,453	(39,453)
Reclamation bonds - US denominated (interest bearing)	427,451	-	-	42,745	(42,745)
American Express deposit - US denominated	44,129	110	(110)	4,413	(4,413)
Total amount or impact - cash and deposits	9,279,359	22,129	(22,129)	243,414	(243,414)

1) Interest earned on the Company's interest bearing cash accounts, treasury funds and certificates of deposit is at prevailing rates that fluctuate with changes in banking interest rates and Government t-bill rates. Management believes that a plus or minus 1% annual change in rates is a reasonable estimate of variability over a twelve month period.

2) The Company's US dollar cash balance, US dollar reclamation bonds and US dollar based certificates of deposit are subject to foreign exchange risk. Management has shown a sensitivity analysis of a plus or minus change of 10%.

15 *Segmented information*

The Company's principal activity is the exploration and development of mineral properties. The Company's resource properties are located in the United States as disclosed in *Note 6.*

The Company held US$1,430,557 in US denominated cash at May 31, 2009 (US$1,584,204 at May 31, 2008) and US$790,175 in US denominated restricted cash at May 31, 2009 (US$408,242 at May 31, 2008).

16 *Management of capital*

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its mineral properties and maximize shareholder

returns. The Company satisfies its capital requirements through careful management of its cash resources and by utilizing bank indebtedness or equity issues, as necessary, based on the prevalent economic conditions of both the industry and the capital markets and the underlying risk characteristics of the related assets. As at May 31, 2009, the Company had no bank debt.

The Company is not subject to any externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the three months ended May 31, 2009.

17 Subsequent Events

On February 11, 2009, the Company announced that it had signed a letter of agreement to acquire all of the outstanding common shares of StrataGold Corporation ("Strata"). Further to the letter of agreement, the Company announced, on March 30, 2009 that it had entered into an arrangement agreement to complete this friendly transaction. The Supreme Court of British Columbia approved the transaction on May 29, 2009 and Strata shareholders approved the transaction on May 26, 2009. The effective date of closing was June 4, 2009.

On June 26, 2009, the Company entered into an agreement with Sandfire Securities Inc. as Lead Agent to raise gross proceeds of $2 million at a price of $0.50 per share via a proposed private placement flow-through offering ("Offered Securities"). The Lead Agent has an option to increase the size of the offering to $3 million, will be paid a commission of 7.0% of the aggregate proceeds of the issue of Offered Securities, and will be granted an option to purchase that number of Offered Securities equal to 7% of the Offered Securities issued at a price equal to the price of the Offered Securities. The offer is subject to regulatory approval and the Flow-Through shares will be subject to a four-month hold period.
