

**Victoria Gold Corp.** (“Victoria”) is a mining company with an Executive team that is experienced in developing and operating mines in an environmentally and socially responsible manner. Victoria’s Eagle Gold Mine poured its first gold in September 2019 and declared commercial production at the end of Q2 2020. Future and current mines, like Eagle Gold, will be a strong contributor to the Yukon and its citizens for many years to come. [www.vgcx.com](http://www.vgcx.com)

Victoria is looking to hire the position outlined below for our **Eagle Gold Mine** located in Yukon:

### **MINE GEOLOGIST (Production)**

Under the direction of the Senior Mine Geologist, the Mine Geologist is responsible for executing mine geology tasks such as planning and implementing ore grade control, reconciliation; QA/QC with a safety and environmental focus, working closely with Mine Technical Services and Mine Operations.

#### **Main Tasks and Responsibilities:**

- Zero environmental non-compliances, accidents and incidents.
- Provide oversight of the blasthole sampling activities and collect data related to rock types, mineralogy, and geologic structures.
- Grade Control and Reconciliation: geologic model and data analysis, grade control and reconciliation, working with Mine Technical Services and Mine Operations.
- Short- and Long-Range Planning: attend daily meetings and provide input into short- and long-range planning.
- Provide monthly reconciliation results for long-range models and actual mine production.
- Stay current with mining laws and safety regulations ensuring compliance with established guidelines.
- Other responsibilities and functions as assigned.

#### **Qualifications and Experience:**

- B.Sc. in Geology or Geological Engineering; Professional Geoscientist License (P.Geo) or eligible Mine Supervisor Certificate
- 5 to 8 years’ experience in the mining industry with preference to open pit operations.
- Proficiency with mineral specific software packages (Vulcan, MineSight, DataMine, etc).
- Previous experience in a mine geology and grade control preferred.
- Excellent communication skills, oral and written, in English.
- Self-directed and self-motivated, demonstrating initiative to do more than is expected or required in the position.
- Commit to safe work practices.
