

Victoria Gold Corp. (“Victoria”) is a mining company with an Executive team that is experienced in developing and operating mines in an environmentally and socially responsible manner. Victoria’s Eagle Gold Mine poured its first gold in September 2019 and declared commercial production at the end of Q2 2020. Future and current mines, like Eagle Gold, will be a strong contributor to the Yukon and its citizens for many years to come. www.vgcx.com

Victoria is looking to hire the position outlined below for our **Eagle Gold Mine** located in Yukon:

Mine - Heap Leach Planning - EIT

Under the direction of the Chief Metallurgist, the Heap Leach Planning EIT will work closely with the process operations group to develop and continuously update the short-term and mid-term plans for the development of the Heap leach Structure. In addition, the Planner will coordinate all aspects of the plan with Process Operations, Fixed Maintenance and Technical Services to ensure proper execution. The planner will carry out engineering activities to ensure service and operating standards are met and aligned to the organization’s long-term goals. The role contributes to continuous business improvement through identifying and developing initiatives that add value to the business. This position will work a rotational basis, two week on-site with two weeks of leave (2 x 2). Responsibilities are not limited to:

Main Tasks and Responsibilities:

- Provide weekly, monthly stacking and leaching plans to maintain productive development of the Heap Leach Facility
- Identify optimized placement strategies on a short and medium term basis while in constant communication with the process operations group
- Maintain the Key Performance Indicators for the Process Department
- Provide input to the Long-Term planner to develop and maintain a rolling 12-month plan, which will allow the mine/process departments to meet their production goals
- Lead and engage in improvement efforts to achieve budgets, production, operations and cost-efficiencies
- Identify and be able to manage projects retaining to the scope of the Heap Leach Facility

Qualifications and Experience:

- B.Sc in Mining/Mineral Processing Engineering
- 1-3 years of experience in open-pit mining
- Detailed knowledge of material handling systems
- Commitment to safe work practices
- Previous heap leach experience is considered an asset
- Prior experience in using mining software such as MineSight is an asset
- Previous experience and knowledge of piping systems is considered an asset
- The ability to register as an EIT with Yukon Engineers
- Strong knowledge of Microsoft Office Suite
- Project management skills and previous experience working with vendors
- Strong ability to affectively communicate both oral and written
- Ability to work within a team environment with demonstrated leadership qualities

- Self-directed and self-motivated, demonstrating initiative to do more than is expected or required in the position

Victoria Gold Corp. offers a competitive compensation and benefits package.
