BELIEVING IN, AND SEEING A PROJECT THROUGH FROM START TO FINISH, fuels Victoria Gold's long-time Operations Manager/ Owner's Representative Mike Gunn

A key member of the company's team since May 2009, Mike has been with Victoria since its start. He has witnessed the Project grow to over 400 employees and contractors working at Victoria's Eagle Gold Project site located near Mayo as it advances through construction to begin operations next year. Mike brings over 25 years of resource sector management, mineral exploration experience and heavy equipment operations to the team.

In his role at the Eagle Gold Project, Mike is responsible for site operations. He also oversees the site's Caterpillar equipment assembly and is helping to document the Project build.

He is most looking forward to Eagle's first gold pour, scheduled for the second half of next year.

"As a member of the Victoria Gold team, I am pleased to help ensure that the future Eagle Gold Mine is a successful, profitable gold producer and that the company is able to continue contributing to the territory's economic and social strength and well-being for decades to come."

"The best part of my job is its variety and the opportunity to meet, and work with, new people in the industry," says Mike. "Evolving with Victoria and learning what it takes to build the Eagle Gold Mine alongside great people, in a great atmosphere, is very rewarding. I am proud to be part of a company that employs so many Yukoners and supports such a great many local and Yukon First Nation-partnered businesses and community initiatives."

Mike Gunn, Operations Manager/Owner's Representative

ABOUT VICTORIA GOLD AND THE EAGLE GOLD PROJECT

The Eagle Gold Project, currently under construction, and future gold mine is part of Victoria's 100 per cent-owned Dublin Gulch gold property located approximately 375 kilometres north of Whitehorse and 85 kilometres north, northeast of the Village of Mayo within the traditional territory of the First Nation of Na-Cho Nyak Dun. The property is accessible by road year-round and is within Yukon Energy's electrical grid.

The Eagle Gold Project has received all major permits for construction and operations, completed the Yukon Environmental and Socio-economic Assessment Board (YESAB) process and mutually created and implements the *Comprehensive Cooperation and Benefits Agreement* with the First Nation of Na-Cho Nyak Dun. Once in operation, the mine will be a significant economic contributor to Yukon employing 350 to 400 people.
