AME AWARDS: CELEBRATION OF EXCELLENCE

The entire Victoria Gold team is honoured to receive the **Association for Mineral Exploration (AME) E.A. Scholz Award for Excellence** in mine development in B.C. or the Yukon.

Victoria Gold was recognized for their achievement over the past decade in developing and successfully bringing the Eagle Gold Mine into production and will be celebrated on February 2 at AME Roundup in Vancouver.

“We are thrilled to be recognized for our contributions to the territory’s mineral exploration and development industry,” says Victoria Gold President & CEO John McConnell. “Victoria could not have achieved our success at the Eagle Gold Mine without the support of Yukoners and we extend our sincere thank you to everyone involved for helping us make the mine a reality.”

The Eagle Gold Mine celebrated its first gold pour in September 2019 and achieved commercial production ahead of schedule on July 1, 2020. The mine reached record annual gold production in 2021; increasing by over 40 per cent from the previous year.

“Our team has been very innovative adapting to conditions,” continues McConnell. “I look forward to working with our employees, contractors and community partners, including the First Nation of Na-Cho Nyak Dun, within whose traditional territory we work, to continue the steady growth we have realized since the Eagle Gold Mine began operations.”

AME is the lead association for the mineral exploration and development industry based in British Columbia and the Yukon. Established in 1912, AME represents, advocates for and promotes the interests of its members engaged locally and globally.
