

# Mine Update

BIGHOUSEPRODUCTIONS.CA

EVERY TWO WEEKS, YUKONERS AROUND THE TERRITORY AND NO DOUBT SHAREHOLDERS AND INDUSTRY BUFFS AROUND THE WORLD EAGERLY WAIT TO SEE THE NEXT EAGLE GOLD MINE CONSTRUCTION PROGRESS VIDEO VIA THEIR EMAIL INBOX OR ON VICTORIA GOLD'S WEB SITE.

These short videos, typically three to four minutes, started in July and since then have intrigued viewers with their exciting, fast-paced visual account of the mine's advancement through its construction phase.

At the helm of this work is Doug Hadfield, founder and CEO of Bighouse Productions; a full-service video, VR and 3D animation production company in Vancouver.

"The first project we took on for Victoria was the creation of a 3D animation that Victoria President & CEO John McConnell used to explain to investors what the project would look like over the course of its mine life," says Hadfield. "It's been so fascinating to transition from that animation in 2013 and imagining what the mine would be to its reality today. The employees, the crushers, the roads, everything is all there now."

"Working with Bighouse Productions to document the construction progress of the Eagle Gold Mine these past months has been very rewarding and we appreciate their work and the project legacy they are creating for us through their incredible footage as the mine moves forward to production." John McConnell, President & CEO, Victoria Gold Corp.

"Working with Victoria has provided us with an incredible opportunity to be a part of the construction of the Yukon's next gold mine," continues Hadfield. "Bighouse Productions has worked in countries throughout North and South America and it's amazing to see a major project like the Eagle Gold Mine built so responsibly, with such a commitment to community and with such employee inclusivity."

## ABOUT VICTORIA GOLD & THE EAGLE GOLD MINE

The Eagle Gold Mine, currently under construction, is part of Victoria's 100 per cent-owned Dublin Gulch gold property located approximately 375 kilometres north of Whitehorse and 85 kilometres north, northeast of the Village of Mayo within the traditional territory of the First Nation of Na-Cho Nyak Dun. The property is accessible by road year-round and is within Yukon Energy's electrical grid.

The Eagle Gold Mine has received all major permits for construction and operations, completed the Yukon Environmental and Socio-economic Assessment Board (YESAB) process and mutually created and

implements the *Comprehensive Cooperation and Benefits Agreement* with the First Nation of Na-Cho Nyak Dun. Once in operations, the mine will be a significant economic contributor to Yukon employing 350 to 400 people.
