CULTURAL INCLUSION PROGRAM - FACTS ABOUT THE FIRST NATION OF NA-CHO NYAK DUN

As part of Victoria Gold's Cultural Inclusion Program at the Eagle Gold Mine, Victoria Gold's Community Liaison Michelle Dawson-Beattie worked with the First Nation of Na-Cho Nyak Dun (FNNND) to develop a poster for mine site employees and contractors so that they gain a greater understanding of the First Nation and its traditional territory within which the mine is located.

The poster, titled *Facts About the First Nation of Na-Cho Nyak Dun* provides high level information about the First Nation's traditional territory, citizen base, language and its location in relation to the Yukon's other 13 First Nations.

It is posted around site alongside other Cultural Inclusion materials highlighting FNNND's Northern Tutchone language including a poster featuring ice fishing and identifying wildlife.

"Empowering our employees and contractors at the Eagle Gold Mine with information to increase their knowledge about the First Nation of Na-Cho Nyak Dun and their respect for the First Nation's values and history is very important to the Victoria Gold team," says Victoria Gold President & CEO John McConnell. "The First Nation is a valued partner in our operations and we are continually striving to ensure that everyone who works for the Company is informed and aware."

FNNND citizens are part of the Northern Tutchone cultural and language group, which also includes Selkirk First Nation and Little Salmon/Carmacks First Nation to the south.

In October 2011, Victoria Gold and FNNND signed their mutually-created and implemented *Comprehensive Cooperation* and *Benefits Agreement* (CBA), which outlines the importance of FNNND cultural awareness and inclusion. The CBA is a framework for respectful communication and transparency to help ensure that FNNND citizens and businesses benefit from the Project throughout the life of the mine.
